DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1:
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 51-67 & 69-72, drawn to a washing machine.

Group II, claim(s) 68 and 73-75, drawn to a method of washing articles.

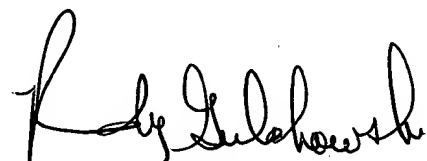

4. The inventions listed as Groups I & II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The "special technical feature" of claims 51-75 is a "sealable enclosure" and/or a "sealable enclosure in the form of an elliptical capsule" which are shown in US 2,335,560 to Crane (cited by applicant) to lack novelty or inventive step and therefore does not make a contribution over the prior art.
5. Crane discloses a washing machine with an elliptical sealable enclosure/capsule mounted for rotation about an axis mid-point of its longer axis. See, for instance, Figures 1-2 of Crane.
6. A telephone call was made to Applicant's representative, Mr. William Lee, on 10 September 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.
7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
